PRODUCT SELECTION

DURACOLOR SANDED

- For 1/8" to 1/2" grout joints
- Polymer fortified for hard, durable, professional results
- Stain resistant and color consistent
- Exceeds ANSI A118.6

DURACOLOR NON-SANDED

- For grout joints up to 1/8"
- Polymer fortified for hard, durable, professional results
- Stain resistant and color consistent
- Exceeds ANSI A118.6

PROGROUT

- High-performance, fast-setting grout for joints 1/16" to 1/2" wide
- Color consistent
- Stain resistant and efflorescence free
- Exceeds ANSI A118.7

INTEGRA

- Non-abrasive all-in-one thin set and grout
- Color consistent – Thin set and grout are the same color
- Specifically designed for glass and mosaic tiles on floors and walls

PRO EPOXY

- Chemical and stain resistant
- Color consistent – Easy to use
- Exceeds ANSI A118.3

COLORED CAULKING

- Maximum joint width and depth should not exceed 1/4"
- Designed for use around tubs and sinks with sanded grout
- Use where horizontal and vertical surfaces meet
- Available in sanded and smooth

MK 100% SILICONE CAULK

- For interior and exterior use with tile or stone
- Flexible material for use on expansion joints
- Suitable for wet and submerged areas
- ASTM C920 / C794

REVIVE

- Water-based urethane acrylic grout stain and sealer
- For revitalizing or changing color of older sanded or non-sanded grouts
- Designed to help protect against moisture and staining

GROUT SEALER

- Penetrating silicone sealer suitable for porous, absorbent masonry, clay, stone, marble and portland cement grouts
- Water-based, silicone resin designed to protect grout surfaces from stains and water

BURST

- Easy to use, powerful additive that accelerates set time
- Does not affect grout performance characteristics
- Excellent for repair work

00023 LATTE **PG SC**

00057 HARVEST **PG**

Sample colors shown are approximate to the final grout color. Final installed grout color may vary due to job conditions, tile porosity, mixing ratio, sealers, installation methods, temperature, or individual batches. Use grouts with the same batch number whenever possible. Different batch numbers should be dry blended together to obtain color uniformity. Follow ANSI A108.10 grouting practices. Please contact Customer Care Department for further questions at 877-547-8822.

Today, tile sizes, style, color, composition and areas of use are constantly evolving, and so must the installation products to meet these demands. Using the correct installation product is vital to the success of every tile installation and selecting the right grout is just as important.
