1 Identification of the substance/preparation and of the company/undertaking

Product details
Product category: FLOORING
Trade name: EPOXY RESIN PART "B"
Application/preparation of the substance: Grouts
Manufacturer/Supplier: PAREXUSA, Inc.
4125 E. LA PALMA AVE
SUITE 250
ANAHEIM, CA 92807

Further information obtainable from: pedro.paredes@parexusa.com
Contact phone number: 800-226-2424
In case of emergency, contact CHEMTREC: 800-424-9300

2 Hazards identification

Hazard pictograms (GHS-US):
- Irritant
- Corrosive
- Health Hazards

Signal word (GHS-US): Warning
Hazard statement (GHS-US):
- H303 Can be harmful if swallowed
- H320 Causes eye irritation
- H335 May cause respiratory irritation
- H313 May be harmful in contact with skin

Precautionary statements (GHS-US):
- P402 Store in a dry place.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P302+P352 IF ON SKIN: Wash with plenty of soap and water
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P304+P341 IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing
- P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

Additional information: Refer to Section 8 Exposure Controls/Personal Protection for additional information concerning exposure limits.

4 First aid measures

Eye Contact
Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

Skin Contact
Immediately flush skin with water for at least 15 minutes while removing contaminated clothing. Get immediate medical attention. Wash contaminated clothing before reuse.

Ingestion
DO NOT INDUCE VOMITING. ASPIRATION HAZARD: This material may enter the lungs during vomiting. Immediately give the victim one or two glasses of water or milk to drink. Never give anything by mouth to an unconscious person. GET MEDICAL ATTENTION.

Inhalation
Remove victim to fresh air. Keep warm and quiet. If not breathing, give artificial respiration. If breathing is difficult, give oxygen by trained personnel. GET IMMEDIATE MEDICAL ATTENTION.

5 Fire-fighting measures

General information:
Containers of this material may build up pressure if exposed to heat (fire). Use water spray to cool fire-exposed containers.

Flash point:
>200 deg F (>93 deg C)

Fire Fighting Extinguishing Media
Use alcohol foam, carbon dioxide, dry chemical, or water spray to extinguish fire. Use water in flooding quantities as a fog to extinguish the fire. Do not use a solid stream of water that may spread the fire.
**Fire Fighting Equipment**

Wear self-contained breathing apparatus (SCBA) and full fire-fighting protective clothing. Thoroughly decontaminate all protective equipment after use.

**Firefighting Instructions**

Evacuate all persons from the fire area to a safe location. Move non-burning material, as feasible, to a safe location as soon as possible. Fire fighters should be protected from potential explosion hazard while extinguishing the blaze. Use water spray to cool fire-exposed containers.

**Fire and Explosion Hazards**

Closed containers may rupture when exposed to extreme heat.

**Hazardous Combustion Products**

Combustion may produce carbon monoxide, carbon dioxide and irritating or toxic vapors and gases. Oxides of nitrogen.

---

**Accidental Release Measures**

**Accidental Release Measures**

FOR SMALL SPILLS: Persons not wearing protective equipment (See Section 8) should be excluded from the area of the spill until clean-up has been completed. Absorb spill with inert material (i.e. dry sand or earth), then place in a chemical waste container. Ventilate the area to decrease the airborne concentration of vapors or gases.

FOR LARGE SPILL: Person not wearing protective equipment (See Section 8) should be excluded from the area of the spill until clean-up has been completed. Prevent spilled material from 1) contaminating soil, 2) entering sanitary sewer, storm sewer, and drainage system, and 3) entering bodies of water or ditches that lead to waterways. Shut off the leak when it is safe to do so, dike and pump the liquid into waste containers. Ventilate the area to decrease the airborne concentration of vapors or gases.

---

**Exposure Controls/Personal Protection**

**Exposure Guidelines**

The American Industrial Hygiene Association (AIHA) have established, for triethylenetetramine, a Workplace Environmental Exposure Level (WEEL) of 1 ppm Time Weighted Average (TWA), with the skin notation, for an 8 hour exposure.

**Engineering Controls**

Use general ventilation to maintain airborne concentration to levels that are below regulatory and recommended occupational exposure limits. See occupational exposure limits in Section 3. Local ventilation may be required during certain operations.

**Eye Protection**

Wear 1) safety glasses with side shields and a face shield or 2) goggles and a face shield. Facilities storing or utilizing this material should be equipped with an eyewash station and safety shower.

**Skin Protection**

Wear chemical resistant gloves such as butyl rubber. If splashing is likely, wear impervious clothing and boots to prevent skin contact. Consult your supplier of personal protective equipment for additional instruction on proper usage.

**Respiratory Protection**

If personal exposure cannot or may not be controlled below applicable limits by ventilation, wear properly fitted respirator approved by NIOSH/MSHA for protection against materials described above.

---

**Physical and Chemical Properties**

**General Information:**

<table>
<thead>
<tr>
<th>Property</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Form</td>
<td>Liquid</td>
</tr>
<tr>
<td>Color</td>
<td>Amber</td>
</tr>
<tr>
<td>Odor</td>
<td>Amine</td>
</tr>
</tbody>
</table>

**Change in Condition:**

- Melting point/melting point range: n/a
- Boiling point/boiling point range: n/a
- Evaporation rate: n/a
- Vapor density: n/a
- Specific gravity: 0.946 (water = 1) at 25°C (77°F)
- Vapor density: >1 (Air = 1)
- Solubility in/Miscibility with water: n/a
- Density at 20°C: n/a
- Viscosity: 400 - 700 cps @ 25°C
- VPD: n/a

**Stability and Reactivity**

**Stability**

Stable at normal temperature and storage conditions.

**Incompatibility**

Avoid contact with acids. Avoid contact with strong oxidizing agents. Aldehydes, Alcohols, Ketones, Acrylates, Organic halides. Avoid contact with epoxies or under uncontrolled conditions.

**Hazardous Decomposition Products**

Thermal decomposition may produce carbon dioxide, carbon monoxide and volatile amines. Nitrogen oxides.

**Hazardous Polymerization**

Will not occur.

**Conditions to Avoid**

Contamination by those materials referred to under Incompatibility. Do not mix this product with nitrates or other nitrosating agents because a nitrosamine may be formed. Nitrosamine may cause cancer.
### Regulatory information

#### US Federal regulations

<table>
<thead>
<tr>
<th>CERCLA, section 103 (40CFR302.4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>This product contains the following toxic chemicals that require notification of the National Response Center of releases of quantities of hazardous substances equal to or greater than the Reportable Quantities (RQ):</td>
</tr>
<tr>
<td>No reportable quantities are present.</td>

</tbody>
</table>
SARA, section 311/312 (40CFR370.21) Hazard classification for this product

Fire: No
Pressure generating: No
Reactivity: No
Acute health: Yes
Chronic health: No

SARA, section 313 (40CFR372.65)

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986:

No reportable quantities are present.

EPA VOC regulations

Theoretical VOC for this product = 211 g/L.

TSCA

All components of this product are listed, or are exempt from listing on the TSCA inventory.

OSHA

This Safety Data Sheet is prepared to comply with the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR1910.1200).

Unlisted ingredients are not 'hazardous' per OSHA standards.

In addition to items listed in Section 11, this product contains the following items that are specifically regulated by OSHA. Exposure limits may be found in Section 8.

State regulations

California

Warning: The following chemicals are present in this coating product in small amounts. These chemicals are listed by the California EPA as materials known to the State of California to cause cancer, (and/or) birth defects, (and/or) other reproductive harm:

No reportable quantities are present.

16 Other information

The information and recommendation set forth herein are believed to be accurate.
