**720 DUSTLESS LHT MORTAR**

Merkrete’s 720 DUSTLESS LHT Mortar, features new, innovative and patented DUSTLESS Technology (DLT).

720 DUSTLESS is a professional grade polymer modified LHT mortar for installing large and heavy porcelain, ceramic tile and natural stone to walls or floors in either commercial or residential applications. It’s innovative DUSTLESS Technology produces approximately 80% less dust than ordinary thin sets and is designed to promote cleaner working conditions and reduce mess. 720 DUSTLESS LHT Mortar uses less water and is creamier and easy to spread.

### Standards:
- Exceeds ANSI A118.4 and A118.11 without the need for additives
- ISO 13007-2

### Suitable Tile Types
- Brick and thin brick
- Cement-based precast terrazzo
- Impervious porcelain and glass tile
- Natural stone tile
- Vitreous, semi-vitreous or non-vitreous tile:  
  - Ceramic, mosaic, quarry, cement body tile

### Suitable Substrates:
- Brick masonry
- Cement backer board¹
- Cement mortar beds
- Cement plaster
- Cement terrazzo
- Ceramic tile and stone
- Concrete
- Concrete masonry
- Exterior grade plywood²
- Gypsum wallboard²
- Merkrete waterproofing and crack isolation membranes
- Merkrete Fracture Guard Uncoupling Mat

¹ Consult cement backer board manufacturer for installation recommendations and to verify acceptability for exterior use.
² Interior use only.

### RECOMMENDED NOTCH SIZE
